

Did you know that there are 139 rivers and streams that flow into the Potomac River, which flows into the Chesapeake Bay. This means that litter from one of these small rivers and streams can lead to plastic pollution entering the Bay.

Keep It Beachy Clean is a program of

CLEAN VIRGINIA WATERWAYS

You are going to a clean up at the local stream. What tools are used during the clean up? **Color the items below that you can use to clean up litter.**

Join a Clean Up

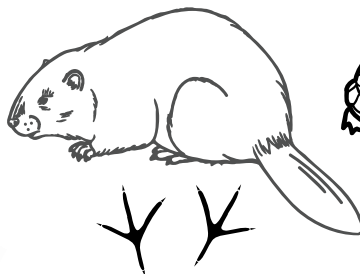

Be a Hero! Help clean up this part of the river by circling the trash that does not belong. See if you can find: **a plastic bottle, a plastic bag, a food wrapper, a balloon, fishing line, plastic cups, cigarette butts.**

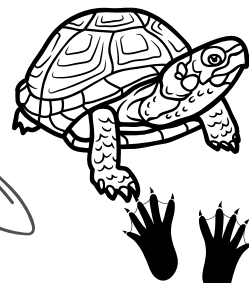

A clean river is home to lots of animals. Footprints called tracks give clues about what animals live here. **Draw lines to match the tracks to the correct animal.**

Box Turtle

Great Blue Heron

Beaver

River Environment Clean Up

Pollution Gloves Trash Bag

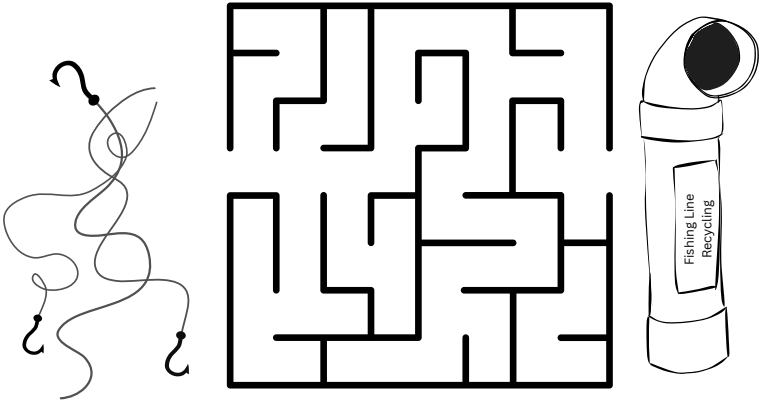

Bottle Wrapper Balloon

Otter Pelican Footprints

Use the space below to draw or write about things you can do to help a waterway near your home.

You found a piece of fishing line (good job!)
 Now, to put it in the correct recycling area!

KEEP IT BEACHY CLEAN

THANKS!

For Not Littering!

My Silly Clean-Up Story

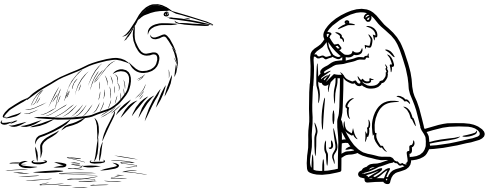

Fill in the blanks below before reading the story. Be creative! Then read your silly story and laugh.

I put on a pair of _____
Type of Clothing
 and grabbed a _____
Noun (Person, Place, Thing, or Animal)

for my first litter cleanup. I made sure I didn't forget my _____ and reusable water bottle.
Noun
 heading to _____.
Place

We found _____, balloons,
Noun
 _____, and other types of
Noun
 pollution. My favorite find was a _____,
Describing Word

Describing Word _____
Noun
 It was voted the best find of the day!
